Capture the moment

Celebrate the golden rays of late summer with a scheme that conjures orchard hues, lazy living and the woozy heat of an afternoon in the garden. Pretty printed fabrics and rubbed-down wood and wicker pieces, dressed-up with cushions and throws, set the scene

**CREATE A SPREAD
OF ETHICAL PICNIC
PRODUCTS**

Carry goodies from kitchen to garden with a scatter of cushions and throws on the grass for comfort. Mix eco-chic serveware in mouth-watering colours with wicker knapsacks, rustic baskets and metal trays.

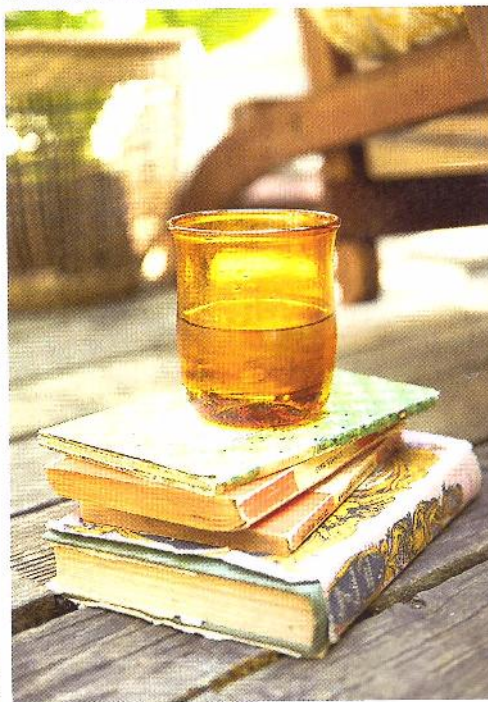

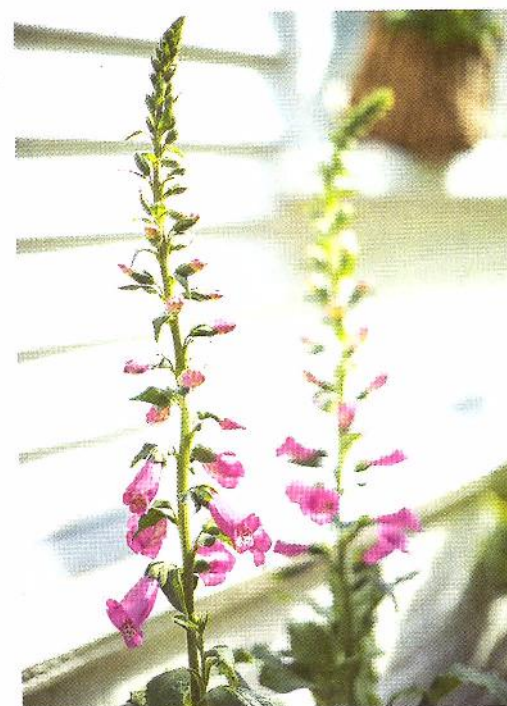

A photograph of a wooden deck in front of a white house. The deck is furnished with two mismatched chairs: a dark wood chair on the left and a light wood chair on the right. A small round table with a dark top and metal legs sits between them, holding a yellow bowl of strawberries and a pink cup. Several potted plants, including one with orange flowers, are arranged on the deck. The house in the background has white siding and windows. Large green leaves hang from above, framing the scene.

MISMATCHED CHAIRS MAKE EASY COMPANIONS

Easy loungers and classic deckchairs make for low-key seating, with cushions in summery shades. Tables in wood and metal add to the warm and welcoming look.

PETAL SHADES SING OF SUMMER

Who needs paint charts and fabric swatches when a posy from the garden can inspire your summer decor? Nature knows how to harmonise colours beautifully...

SERVE UP PLOT-TO-PLATE STYLE

Lunch never looked so good than at a table inspired by freshly picked produce. Choose ripe colours with scattered-fruit fabrics, and add coloured glass to bring an extra glow to the setting.

HOUSE GARMENTS IN HUMBLE STORAGE

Choose new Shaker-inspired hanging rails to store home and garden gear. A bamboo drum becomes a table or stool to aid quick-change moments.

DESIGN A SPACE TO RELAX AND SNOOZE

Take the weight off from those welly hours, with an easy corner ready for lounging. Dress a metal daybed with a blend of plain and simply patterned fabrics, with a garden-inspired wallpaper backdrop to add some seasonal flair.
