## Unique Home Stays

Unique Home Stay's USP is that they only feature houses that inspire them, creating a collection of stand-out, enviable properties. Cottages, eco-friendly beach huts, forest hideaways and sprawling manors are all available through the website, all complete with thoughtful interiors and abundant personality and charm. When the company started in 2001, the properties were all in Cornwall but the team has since branched out to house a collection of wonderful rentals across the whole UK.
