Elemental

Scotland

This Scandi-chic bolthole had us hooked the second we clocked its rainforest shower, four-poster beds and views across the sapphire-blue waters of Loch Rannoch. Drawing inspiration from the works of Swiss-French architect Le Corbusier, Elemental's light-filled rooms could easily have been extracted from an episode of Grand Designs. Plus, there are two private beaches separated by an overgrown headland. There are two kayaks on hand, perfect for when you decide to unleash your thrill-seeking side on the sparkling Scottish waters. This place usually books up months in advance, but you're in luck for the early May bank holiday. Be quick!

What it costs: £1,695 per short break
